      </p>
      <p>
        Borkut is a traditional powdered preparation made from the <em>ber</em> fruit — known globally as the jujube or Chinese date (<em>Ziziphus mauritiana / Ziziphus jujuba</em>). For generations, communities across South Asia, the Middle East, and North Africa have dried, ground, and preserved ber into a fine, aromatic powder.
      </p>
      <p>
        The result is a versatile, shelf-stable superfood that captures the tangy-sweet essence of fresh ber in a concentrated, easy-to-use form — perfect for drinks, desserts, remedies, and everyday cooking.
